Workforce Management Application

Managing employment actions during difficult times is never easy. Companies often resort to spreadsheets to attempt to **manage layoffs, furloughs, pay reductions, and work schedule reductions**. Let go of time-consuming, error-prone spreadsheets and provide your managers and leaders with a simple, yet powerful compensation management application built on SimplyMerit's time-proven architecture.

FREE!

During COVID-19, MorganHR is making the application free to use. We are providing extensive help guides and videos to ensure companies can load and deploy the application quickly and easily. MorganHR is also offering an optional fixed-fee implementation service for customers who would rather engage our consultants with the implementation.

Quick to Implement and Easy to Use

LIVE IN HOURS – Load, organize, and distribute your compensation data to your managers in a matter of hours. The interface is intuitive and easy to learn for your managers with little or no training.

Fully Configurable Manager Interface

CoreTeam can be completely configured to your specific needs and data requirements. Layoffs, RIFs, furloughs, reductions in pay, etc. are within your control. You can also plan for possible future rounds of layoffs in a single pass.

Financial Modeling / Visibility

CoreTeam provides financial modeling / visibility at every level of management across both that manager's span of control as well as direct reports. Easily understand impact to both compensation budgets as well as numbers of employees impacted.

Built on SimplyMerit

CoreTeam is Powered by SimplyMerit – a proven Compensation Management platform that provides a secure, real-time, data-driven environment for leaders and managers to make efficient and objective decisions. Eliminate spreadsheet errors and version control issues while providing an objective, data-driven experience for your management team.
